Dear Mr. Weisberg:

Enclosed, are copies of correspondence dealing with my efforts to discover if investigations were made concerning the several suspects reported in CE-1974 of the " Warren Report". You will note that I have been advised to delve through the National Archives for the answers. Since I can not go to Washington at this time, I was wonderning if you might already have some information on this subject. If so, perhaps you would be willing to inform me and if not, maybe you will find these copies of some interest anyway.

I found your Whitewash series along with Oswald in New Orleans, most interesting and hope that I may read more of your works in the near future as well as see you on television (Les Crane Show).

Sincerely yours,

Emory L Brown Jr.
